THE SEEING OF CLOUDS

This part of Gerhard Lang`s landscape work involves him drawing while looking only at the clouds, not at the paper. In his work this traditional method is called VISUS SIGNATUS. There are essays on Lang‘s approach and more Visus Signatus drawings on this website. Please see under WORK: *The Seeing of Clouds. Domgasse - Vienna* | The *Seeing of Clouds 2018 - 2022* | *Contingere Infinitatem* | *Seeing the Mountains and Seeing the Clouds* | *Nubi Tempora* | *Whitestone Pond Series* | *Visus Signatus.
